

2025 ROSE LISTING

Welcome to Flower World's Rose Department! Available to our customers this year are:
Climbers, David Austin, Floribunda, Grandiflora, Groundcover, Hybrid Tea, Miniatures, Shrub and much more.
Each category is described below. Please note: This list is for reference only; not all varieties are available at all times.
The majority of our roses are from Weeks Wholesale Rose Growers, with the balance of the other roses coming from
Certified Roses, David Austin Roses and Star Roses.
There will be a selection of Jackson & Perkins roses mixed in with the Weeks roses as the companies have merged.
AARS AWARD means: The rose has won the All-American Rose Selection award.
NW means: rose is recommended for Northwest weather conditions and has an outstanding performance in our climate.

HYBRID TEA ROSES

This is the most popular class of rose and outsells all other types. Flowers are large and shapely, generally producing one flower to a stem. Some will be better suited to the NW climate and will perform extremely well with proper care and pruning. Many thousands of varieties have been produced since the first rose appeared in 1867.
The first tea roses came on tea boats bound for England from India.

HYBRID TEA ROSES	COLOR AND COMMENTS	AARS	NW
Abbaye de Cluny	Modern apricot tones, antique rose-shaped blooms. Produce all summer

Uptown Girl	Coral Pink blooms with a quartered look. Sweet-fruity fragrance		
Wild Blue Yonder	Velvety petals purple-red highlighted in lavender, citrus-rose scent	X	X

<div> <div>FLORIBUNDA ROSES</div> <div> <p>Floribundas have clusters of smaller, usually cup-shaped flowers. They generally produce more flowers than hybrid teas, so they are showier in the garden. Pinch out the center bud when the cluster is formed and all the flowers will open at once - a more pleasing effect. These roses are frost hardy, disease resistant, abundant flowering and low maintenance. They thrive in a wide range of soils and climates and their easy care allows you free time to enjoy them. Plants usually grow 2-3' high.</p> </div> </div>			
FLORIBUNDA ROSES	COLOR AND COMMENTS	AARS	NW
Angel Face	Lavender blooms, sweet fruity fragrance, leathery foliage	X

True Passion	Striking orange-red blooms on an easy to grow shrub with a peppery fragrance		
Watercolors Home Run	Yellow-gold blushing pink blooms, natural disease resistance, rounded habit		
<p align="center"><u>SHRUBLET ROSES</u></p> <p align="center">Shrublets are roses with varying habits which are never too big to tuck into restricted garden spaces These roses are called 'shrublets' because the flowers are individually smaller with proportionately smaller foliage. Shrublets bloom abundantly, have a good disease resistance and a high level of hardiness. Shrublets look attractive in the landscape with merely a light shaping rather than a hard pruning.</p>			
SHRUBLET ROSES	COLOR AND COMMENTS	AARS	NW
Gourmet Popcorn	Bright white, profuse fragrant flowers, rose scented		X
<p align="center"><u>GROUNDCOVER ROSES</u></p> <p align="center">Groundcover roses are hardy, spreading roses that quickly cover large areas, where ever you want low growing color that's practically carefree. Each variety will differ in height and width. There are two varieties that can also be used as baskets, or in patio pots - Happy Trails and Snow Shower.</p>			
GROUNDCOVER ROSES	COLOR AND COMMENTS	AARS	NW
Playful Happy Trails	Vigorously spreads, blooms in clusters with good repeat throughout the season		
Rainbow Happy Trails	Vibrant gold-yellow blushed with pink edges on the petals, dark green glossy foliage		
Red Ribbons	Disease resistant, bright red single flowers, free flowering		X

CLIMBING ROSES			
Climbers are easy to grow and among the most spectacular plants in the landscape, adding height and filling it with thrilling masses of bloom. Train them to grow against walls, ramble along fences, climb posts or pillars, cover slopes, or let them trail up and over gateways. They are so impressively beautiful they'll add to the value of your home.

William Baffin	Deep pink, fragrant pink blooms, very hardy, good for cutting		
Zephirine Drouhin	Deep rose pink blooms, virtually thornless, highly fragrant		

TREE ROSES		
<p>Tree roses are either a 18", 2' or 3' stem, which is grafted onto a hardy root stock. The rose itself is then grafted onto the top of the stem. These roses are very elegant when used as a feature among other plantings. Tree roses make a nice vertical statement in your garden. Extra winter protection is needed for the tree to survive. Different heights are available. The shorter trees are great on your deck in pots and patio containers. We also carry a double grafted tree with the first graft at 18" and another graft at 36" which creates a two layered tree. These plants give you a lush topiary look with twice the number of blossoms of conventional rose trees.</p>
