

Bulk / Bagged Potting Soil

Flower World's Potting Soil (RTU - Ready to Use)

Bulk or Bagged

This is our own refined potting mix which we use every day and is fortified with slow-release fertilizer and amendments. Use for general planting. This is our most popular potting soil.

Flower World's Compost

Bulk or Bagged

Composted from pure plant material.
Use as a mulch or mix with existing soil.

Flower World's Garden Soil/Topsoil

Bulk or Bagged

Our own nursery and garden soil mixed with composted plant material which includes leaves, plants, and grass clippings. This soil is fortified with a slow-release fertilizer. Good for mulching, topsoil and mixing with existing soil.

Flower World's Indoor Potting Soil

Bagged only

Composted manure, slow-release fertilizer, amendments, and extra pumice for added drainage. Use for most types of indoor plants.
