

## VINES

Vines are some of the most versatile plants available. Unlike shrubs and trees, which grow in a manner that is predictable, vines can be guided to grow in several applications. You can train a vine to grow upward or outward, on a flat vertical surface, up and around a post or railing, over an arbor or fence and even use them as a groundcover in some cases. There are very few evergreen vines available, most are deciduous. Those marked in the shade category will tolerate shade but they also like the sun. Following is a list of available vines.

Name	Description	Growth	Sun	Shade	Hardy
<b>Actinidia (Kiwi vine)</b>					
arguta - male/female/self-fertile	small, smooth, edible fruit, disease and pest free	moderate	X		-25
deliciosa - male & female	edible fruit, red fuzzy leaves	moderate	X		0
kolomitka - male & female	edible fruit, variegated foliage	moderate	X		0
tetramera	white tipped leaves, rose-pink flowers, no fruit	vigorous	X		15
<b>Akebia</b>					
quinata (five leaved)	pink, white or purple flowers	moderate	X	X	0
'Purple Rose'	rose, pink	moderate	X	X	-30
'Shirobana'	white	moderate	X	X	-30
'Silver Bells'	pale pink & white	moderate	X	X	-30
trifoliata (three leaved Akebia)	rare, intensely fragrant, deep purple flowers	moderate	X	X	0
'Purple Kimono'	dark purple flowers	moderate	X	X	-30
<b>Ampelopsis (Blueberry Vine)</b>					
brevipedunculata	whitish flower, metallic blue berries, nice fall color	moderate	X		-10
'Elegans'	variegated foliage with white/pink berries	moderate	X		0
<b>Campsis (Trumpet vine)</b>					
atropurpurea 'scarlet'	3" long red flowers	moderate	X		-20
grandiflora 'Chinensis'	2"-3" tubular salmon orange	moderate	X		5
radicans	3" long orange tubular flowers, spreads fast	moderate	X		-20
'Flamenco'	3" long rose/orange throat	moderate			-25
'Flava'	3" long yellow tubular flowers, spreads fast	moderate	X		-20
'Indian Summer'	3" long, reddish with yellow throat	moderate	X		-25
x tagliabuana 'Madame Galen'	hybrid variety, salmon red flowers	moderate	X		-10
<b>Celastrus (Bittersweet vine)</b>					
scandens 'Diana'	female - small yellow flowers, red/yellow coated seeds, yellow fall color	vigorous	X		-10
'Hercules'	male - small yellow flowers, no fruit, yellow fall color	vigorous	X		-10
<b>Clematis</b>					
armandii 'Apple Blossom' *	evergreen, fragrant pale pink flowers, blooms early spring	moderate	X	X	15
cartmanii 'Avalanche' *	evergreen, lacy foliage, white flowers	moderate	X	X	10
armandii 'Snowdrift' *	evergreen, fragrant white flowers, blooms early spring	vigorous	X	X	15
cirrrosa *	semi/evergreen, white speckled pink	vigorous	X	X	10
hybrids (many varieties)	an assortment of colors	vigorous	X		-20
integrifolia	bright blue nodding flowers	vigorous	X		-10
macropetala (Dawny Clematis)	vigorous vine, free flowering in blues/pinks	vigorous	X		-10
montana (Anemone Clematis)	massive display, anemone-like white/pink flowers	vigorous	X		-10
paniculata (Sweet Autumn)	billowy mass of white fragrant flowers	vigorous	X		-10
tangutica (Golden Clematis)	bright yellow, nodding flowers, silver hair, seed clusters	vigorous	X		-10
texensis (Scarlet Leather Flower)	pink to red, nodding bell-like flowers	vigorous	X	X	10
<b>Euonymus</b>					
fortunei 'Wolong Ghost' *	dark green thin leaves with silver stripe, very unique	vigorous	X	X	-30
<b>Grapes (Vitis)</b>					
edible & wine types	great over arbors producing clusters of late season fruit	vigorous	X		-20
coignetial (Crimson Glory Vine)	inconspicuous flowers, grown for foliage, burgundy bronze & green with red fall color	vigorous	X		-15
vinifera 'Purpurea' (purple leaf grape)	graceful purple leaves which redden in fall, tiny edible black fruit	vigorous	X		-15
<b>Hedera (Ivy) *</b>					
canariensis *	large ivy shaped leaves with green/white variation	vigorous	X	X	10
'Aureo Variegata' *	large ivy shaped leaves with green/yellow variation	vigorous	X	X	10
helix *	assorted leaf shapes and textures	vigorous	X	X	10
<b>Holboellia (China Blue Vine)</b>					
coriacea *	sweet scented, blooms mid-season followed by fruits July-Sept, male/female flowers on same plant	slow	X	X	-15

\* Denotes evergreen vines.

**Note: Not all plants are available at all times.**

Name	Description	Growth	Sun	Shade	Hardy
<b>Humulus (Common Hop)</b>					
lupulus	seeds used to flavor beer, tender shoots used as a vegetable/medicinal	vigorous	X		0
lupulus 'Aureus'	golden colored foliage, seeds used to flavor beer	vigorous	X		0
<b>Hydrangea (Climbing)</b>					
anomala petiolaris	small round leaves, white flowers, blooms late	slow	X	X	-20
anomala 'Miranda'	gold variegated leaves, white flowers	slow	X	X	0
integrifolia (evergreen)*	narrow green leaves, large white flowers	slow	X	X	-5
<b>Jasminum</b>					
nudiflorum (Winter Jasmine)	yellow flowers with black berries, blooms very early	moderate	X		0
officinale	white flowers	vigorous	X		10
polyanthum *	fragrant, pink in bud opens to white	vigorous	X		25
stephanense *	semi-evergreen, fragrant, soft pink flowers	moderate	X		10
<b>Lonicera (Honeysuckle)</b>					
henryi *	inconspicuous flowers with blue-black berries	vigorous	X	X	-25
japonica 'Halliana'	fragrant white to pale buff flowers	vigorous	X		-20
'Purpurea'	purple tinted foliage, coral red/yellow flowers	vigorous	X		-20
Mandarin	orangish pink, no fragrance, new selection from B.C.	vigorous	X		-20
pericyclenum 'Belgica'	scented flowers, red purple fading yellow, early bloom	vigorous	X		-20
'Harlequin'	cream, pink, dk green irreg var. leaves, pale rose flowers	vigorous	X		-20
'Serotina'	scented rich reddish purple, late blooming	vigorous	X		-20
tragophylla (Chinese)	white flowers fading to yellow	vigorous	X	X	0
x brownii 'Dropmore Scarlet'	glaucous leaves, bright scarlet tubular flowers	vigorous	X		-30
x heckrotti 'Gold Flame'	variegated leaves, yellow veins, salmon/pink flowers	vigorous	X		-20
x honey baby	dwarf (bush trainable)				
<b>Mandevilla laxa (Chilean jasmine)</b>	large, trumpet-shaped white flowers, fragrant	moderate	X		15
<b>Parthenocissus</b>					
englemanii	shorter version of quinquefolia	vigorous	X	X	-20
henryana (Silvervein Creeper)	dark green leaves with silver veins, will cling to walls	slow	X	X	0
quinquefolia (Virginia Creeper)	fall leaf color from orange to scarlet, fast growing	vigorous	X	X	-20
tricuspidata (Boston Ivy)	small ivy-shaped leaves, clinging tendrils, fall color orange-scarlet	vigorous	X	X	-20
<b>Passiflora (Passion Vine)</b>					
caerulea	white/cream/pink/blue/purple flowers in summer	moderate	X		25
'Pink'	pink	moderate	X		25
'Amethyst'	lavender/purple	moderate	X		25
x star of surbiton	white	moderate	X		25
<b>Polygonum (Silver Lace vine)</b>					
aubertii	fast spreading medium green leaves, tiny, white, fragrant flowers, late summer	vigorous	X		-20
<b>Rosa (Climbing)</b>	many varieties in assorted colors with fragrant flowers	moderate	X		0
<b>Schizophragma (False Hydrangea vine)</b>					
elliptifolium	cream flowers, red new growth foliage, self-clinging	slow		X	-5
hydrangeoides	green clinging leaves do no harm, flowers late season	slow		X	5
'Lacy Hearts'	variegated foliage	slow	X		0
'Moonlight'	beautiful silver veined leaves that cling, white flowers	slow		X	5
x roseum	sprawling deciduous vine with light pink flowers, will cling to anything	slow		X	5
<b>Trachelospermum</b>					
asiaticum 'Goshiki' *	fragrant jasmine-like flowers, variegated leaves	moderate	X		20
asiaticum 'Texas Longleaf' *	narrow leaves with creamy white fragrant flowers	moderate	X		15
jasminooides (Star jasmine) *	1" clusters, fragrant flowers, dark green leaves	slow	X		25
<b>Wisteria</b>					
floribunda (Japanese)	very fragrant, white, blue or violet flowers, 18" long	vigorous	X		-20
frutescens (American)	fragrant blue/violet flowers, 4-6" long	vigorous	X	X	10
sinensis (Chinese)	slightly fragrant, violet, white or blue flowers, 12" long	vigorous	X		-20
venusta (Silky)	profuse short clusters that open all at once, 8" long	vigorous	X		-20

\* Denotes evergreen vines.
