

Wetland Tolerant Plants

For most plants to survive in wet, soggy areas water must pass quickly through the roots otherwise the plant will suffer from lack of oxygen.

There are some plants, though, that will tolerate an excessive amount of water.

The following are some of the shrubs, trees and perennials that are tolerant of wet or damp areas

TREES	SHRUBS
Acer circinatum (Vine Maple)	Amalanchier (Serviceberry) damp only
Betula nigra (River Birch)	Andromeda polifolia (Bog Rosemary)
Fraxinus (Ash species)	Aronia arbutifolia (Chokeberry)
Metasequoia glyptostroboides (Dawn Redwood)	Cornus (Red and Yellow Twig Dogwood)
Nyssa sylvatica (Tupelo Tree)	Cornus canadensis
Platanus (Sycamore)	Gaulthera Shallon (Salal)
Populus deltoides (Poplar)	Ilex verticillata
Salix (Willow)	Potentilla fruticosa
Sequoia sempervirens (Coast Redwood)	Salix discolor (Pussy Willow)
	Vaccinium ↓
PERENNIALS / GRASSES	
Aconitum (Monkshood) damp only	Ligularia wet
Acorus (Sweet Flag)	Lobelia cardinalis damp only
Asarum (Wild Ginger)	Lysimachia wet
Asclepias (Milkweed) ↓	Mimulus damp only
Caltha palustris (Marsh Marigold) wet	Primula (Candelabra varieties) wet
Chelone (Turtlehead) damp only	Rheum damp only
Cortaderia selloana (Pampas Grass) ↓	Rodgersia
Equisetum (Horsetail) wet	Sanguinaria canadensis (Bloodroot)
Eupatorium (Joe Pye Weed) damp only	Sisyrinchium californica (Yellow Eyed Grass)
Ferns (many varieties)	Tradescantia
Houttuynia ↓	Trollius (Globeflower)
Iris (several hybrids) wet	Zantedeschia (Calla Lily) ↓
Juncus (Rush) ↓	

***Please note that not all of these varieties of plants will be available at all times.**
