

## Plum Pollination Chart

Variety Selected	Pollen Source	Japanese Plum	Beauty	Elephant Heart	Hollywood	Methley	Nadia (plum-cherry)	Santa Rosa	Satsuma	Shiro	European Plum	Blue Damson	Brooks	French	Green Gage	Imperial Epineuse	Italian	Seneca	Stanley	Yellow Egg
<b>Japanese Plum</b>																				
Beauty			X									X	X	X	X	X	X	X	X	X
Elephant Heart				X								X	X	X	X	X	X	X	X	X
Hollywood					X							X	X	X	X	X	X	X	X	X
Methley						X						X	X	X	X	X	X	X	X	X
Nadia (plum-cherry)							X					X	X	X	X	X	X	X	X	X
Santa Rosa								X				X	X	X	X	X	X	X	X	X
Satsuma									X			X	X	X	X	X	X	X	X	X
Shiro										X		X	X	X	X	X	X	X	X	X
<b>European Plum (Prune)</b>																				
Blue Damson			X	X	X	X	X	X	X	X										
Brooks			X	X	X	X	X	X	X	X										
French			X	X	X	X	X	X	X	X										
Green Gage			X	X	X	X	X	X	X	X										
Imperial Epineuse			X	X	X	X	X	X	X	X										
Italian			X	X	X	X	X	X	X	X										
Seneca			X	X	X	X	X	X	X	X										
Stanley			X	X	X	X	X	X	X	X										
Yellow Egg			X	X	X	X	X	X	X	X										

### NOTE:

Japanese and European varieties of plum do not cross pollinate with each other. European varieties have been known to be self-fertile, which includes Blue Damson, Brooks, French, Green Gage, Imperial Epineuse, Italian, Seneca, Stanley, and Yellow Egg. Nadia is a newer variety of Japanese plum/cherry hybrid which seems to be self-fertile but will also do well with a Japanese plum pollinator.

### DIRECTIONS for USE:

1. From the left-hand column select a cultivar you are interested in growing.
2. Check across the chart; the unmarked boxes will be a reliable pollinizer for the cultivar you have chosen.
